
Team Facade Coach Meeting

11/7/13

John Lee
Mari Masuda
Albert Pham
Abhishek Shiroor

Roadmap

- Previous Week's Accomplishments
 - Major Findings
 - Technical Issues
 - Plan for the Following Week
-

Previous Week's Accomplishments

- Set up the environment
- Forked the repo
- Fixed visualization to work with Einstein

Major Findings

- Einstein API does not return other gateway information (NASA, Jeenet_1, SweetFeedback)
 - Einstein API does not return sensors that are available for device in one call (must make second call to get sensors)
 - Old: http://cmu-sds.herokuapp.com/get_devices
 - New: http://einstein.sv.cmu.edu/get_devices/json
-

Technical Issues, Things to Discuss

- Is the API ready to consume? Timeline.
 - Which team is working on the current APIs?
 - What's the reason for using XML?
-

Plan for the Following Week

- Finish integration with Visualization
 - Add Sensor Dashboard
 - JSON to XML (may be implemented by Joe's team)
-
